SUMMARY

B.Tech Computer Science student (II Year, 8.17 CGPA) with hands-on experience building full-stack and IoT projects using Java and C++. Ranked active on CodeChef with 470+ problems solved, covering arrays, sorting, and mathematical logic. Grounded in Data Structures, Algorithms, and OOP — with a habit of building projects to test what I learn, not just study it.

PROJECT

2026 - Present

- **WPS Editor – A cross-platform native desktop document editor supporting DOCX and PDF files, built with React, Vite, and Tauri. Features a Notion-inspired UI with light/dark mode, rich-text editing, and PDF viewing. Runs natively on Windows, macOS, and Linux.**
- **To-Do List App – Built a Java desktop application with task management features including adding, editing, and deleting tasks.**
- **HorizonX – Movie Streaming Web Application – Developed a movie streaming web application with a modern animated interface and backend integration for fetching movie data. Implemented dynamic content loading and responsive UI design.**
- **Built an IoT-based system to monitor blood storage conditions and manage donor information using a database, improving blood availability tracking**
- **IOT based Smart Gas Usage Behavior & Leakage Intelligence System**

AREAS OF INTEREST

- Data Structures and Algorithms, Database
- Web Application Development
- Object-Oriented Programming with Java
- C++ Programming

EDUCATION

Bachelor of Technology in Computer Science and Business Systems - 8.17 CGPA (II Year) 2024-2028

Kalaigarkaranidhi Institute of Technology

HSE AND SSLC

2022 & 2024

Seventh-day Adventist Mat.Hr.Sec.School

- Class 12 : 71%
- Class 10 : 73.3%

Technical Skills

- Languages: C++, Java
- Core Concepts: Data Structures, Algorithms, OOP, Problem Solving
- Platforms: LeetCode, CodeChef, Codeforces, AtCoder
- Linux & System Tools: Ubuntu, KDE Plasma, Linux Terminal, Shell Commands, Git

ADDITIONAL INFORMATION

Languages: English, Tamil

Certifications: NPTEL (Object - Oriented Programming with java)

Activities: Code Chef (Max rating - 1066 , No.of.problem solved - 470+)
